One day at FloatingSakura's House.

A week has passed and the Akabane incident has yet to be reported.
BGM: RAINING
No, I should say it's news blockade, not regulation.
kacha
The circumstances of the investigation to the bribery scandal has also been regulated perfectly by the police
I haven't figured out what that key badge the rubber guy dropped is.
Somehow, it looks like this has become trouble

On that day Akabane was murdered, he was wearing a badge, so it's natural to think that he was planning to go to Roppongi Club
I suppose that the club was open when I was confronting the rubber bastard.
If I can find reference to the members' whereabouts, I may be able to find which members of the Diet that stand against the Drug Deregulation Bill were missing on the day of Akabane's murder
By following those guys, I made my way to the Roppongi Club.
